Dear Harbor Tenant,

In an effort to provide emergency information to the tenants of the Atlantic Highlands Municipal Harbor, The Borough of Atlantic Highlands has expanded the use of its SWIFT911 Emergency Notification System.

SWIFT911 is a high speed notification program capable of providing important messages via telephone and e-mail. These messages would include weather emergencies as well as any important information regarding the harbor facility that may affect your boat, slip or mooring.

If you would like to sign up to receive important or emergency messages, please click on the "Swift911 Emergency Notification" icon and follow the directions.

Thank you and if you have any questions regarding this system, please feel free to call the harbor office at 732 291-1670 or e-mail your questions to us at [ahharbor@ahnj.com](mailto:ahharbor@ahnj.com).

Sincerely,  
The Harbor Staff
