REPORTS – COUNCIL, ADMINISTRATION, PROFESSIONAL, OTHER:

Councilman Archibald reported that next week the Borough would be going out and selling the balance of the BANS which total about 9.8 million. We are hoping for a .8 or .9 bid. He asked John Amici and Gerry to run a quick report on the number of refunds to date for the Harbor, and it is totaling about \$80,000.00 this represents a significant amount of money and we still do not have clarity from the Business Interruption claim. The insurance company is saying that the boats and the income from the boats would not be covered because of hesitation in their acceptance of the piers, docks and floats as a part of the coverage. This could possibly open them to the financial responsibility of rebuilding the Harbor and they are hesitant to do that. He also asked if the grounds and some of the garbage picked up in the picnic area.

Councilman Hoffmann reported Fireworks display committee is seeking donations to enhance the July Fireworks shoot. The donations are utilized to enhance the display. Because of the economy, there will be no mailing of fliers this year to surrounding towns. Donna King would be the contact person for this. He reported that the Fireman's Fair will be held from July 2nd through July 6th. He also reported raffle chances are on sale for a Harley Davidson motorcycle and also a 50/50 will be available. He also reported on issues in the Harbor regarding delays in the delivery of materials, especially for Frank's Pier. Some material is already 5 1/2 weeks past the delivery date. He reported that the well replacement for the Water Dept is coming along fine and the work project should be completed by July.

Councilman Doyle commented that he is convinced once the Harbor is done, it will be a first class Harbor, and his only concern is that we don't go into the hole for 4 or 5 million dollars. HE reported that Sergeant Glietz and Carol Cassese will be retiring. There have been 33 applicants for the Court Administrator position and that has been reduced down to six. He reported that May 27 is the Memorial Day Parade at 11:00am. He reported on May 18th, flags will be placed in the Bayview Cemetery and he is looking for Boy Scouts to help with that.

Councilman Delloso reported on the Sewer Authority dissolution. The main has been put across the highway and that completes the first phase. The committee is shooting for a December 31, 2013 deadline to complete the process. There will be a meeting in the near future to discuss the approximate 9.2 million current debts and how it will be divided between the two Boroughs.

Councilman Sutton had no report.

Councilman Fligor reported on the Sewer Authority progression and everything is moving along fine. He had reviewed the documentation we had with NJNG and in hind sight, he now has the new maps and there will be a most recent map forwarded to him in the near future. He reported that he and Mr. Dellosso attended a fundraiser at Rutgers University, representing the Borough of Atlantic Highlands. They will be donating a signed Jersey that could be auctioned off.

Mayor Rast confirmed the retirement of Sergeant Glietz and reported there is another officer with health issues. He asked for the committee to begin the hunt for a replacement of 2 Police Officers to replace the deficit in his department. This will give him a head start in preparation for the possibility of satisfying a future need to hire a new officer. He believes there will be further departures in the department as well and it takes months to hire and test and train. He reported that the Lion's Club will be the recipient of the proceeds from the PBA Ball and the Sandy Hook Little League will be the benefactors of the Mayor's Ball being held on October 4th.

Administrator Hubeny reported on additional work in the Harbor on Frank's Pier for Seastreak. Additional work will be billed to and borne by Seastreak. He reported that there are change orders in the amount of \$148,000 that will be coming through. J.H. Reid is also looking for an extension of 45 days and he has asked T&M to get involved to start scrubbing their scheduled. We have also asked for a meeting with Mr. Reid to discuss our dissatisfaction with this situation. He reported that some floats are in and some boats will be able to be in by Memorial Day. [There was extensive discussion on these issues.] He reported that Municipal Aid has awarded a \$175,000 grant for West Ave Phase II. He has an application for the Monmouth County Open Space Grant and has some ideas on how to utilize these funds. He reported that Resolution 106-2013 has been removed from consideration for tonight. He also reported that he met with the US Geological service regarding the Bayshore Trail. Although we no longer own the trail, we need to be diligent in protecting some of our residents whose properties lay alongside the trail. He reported FEMA has a grant that the US Geological Service has and would like to come and do a survey of the Bayside Drive homes on the water side, down to the water. This is a good project and will be good to be involved. He reported the Mayor received correspondence regarding the NFL and the Super Bowl next year regarding sponsorships of events. He reported the County is removing boardwalks and wood along the Bayshore Trail and trenching. There has been some issues with their DEP permitting and they have stopped until plans have been developed and permits have been issued. As of now, there are no plans to rebuild the boardwalks and they are looking for plans to keep it crushed stone/quarry dust etc. He reported we would be going out to re-bid for the fencing in the Harbor. Also there is a new agreement presented to each member regarding the sharing of the Municipal Court with Highlands and the updated proposal regarding dispatchers.

Deputy Merkel had no report.

Attorney Reilly had no report.

Borough Engineer David Marks reported he will be meeting tomorrow with Mr. Reid.

Chief Vasto reported on the rise of Heroine use throughout the County. There was an incident

this morning where a resident overdosed and died. He reported on an arrest in a burglary where the perpetrator would look for open doors in homes and burglarize them. Again this was narcotics related and encourages everyone to lock their doors when not at home. He commended Detective Stone, Sergeant Doherty and Patrolman Inglis on their response to a First Aid call at the Sunoco, where the subject coded and required CPR. The individual survived and is currently in ICU at the hospital. He reported that he applied for an ALPR [Automatic License Plate Reader]. There will be no cost to the Borough for this and it will be installed on the one of the cars. He reported that there is one located on First Ave before you enter the Harbor. This is a part of the initiative by Homeland Security to make our Harbor a harder target. He finally reported that every office qualified at the Police range.

PUBLIC COMMENTS:

Frank Grecco – Leonard Ave asked the side of the fire suppression system on the docks. He asked about the tax revaluation and when the last time that was done. He asked about the status of Avenue C and Leonard Ave storm water issue. He asked about the catch basin sitting high on Leonard Ave and Avenue C and when they repaved the street, did that not use the proper depth of asphalt.
